REPORT OF THE SUPERINTENDENT

Office of the Superintendent, Ridgley C. Clark, M. A. August 10th, 1936.

To the Board of Education:

I hereby submit my twentieth annual report as superintendent of your public schools.

Pupil Accounting

The enumeration for the past year was 1563, 65 less than last year. The registration was 1653, 80 less than last year. The average attendance was 1488, 105 less

than last year. The following table gives the registration and average attendance by schools.

Margaret H. Speers, B.S.	H.	S.	Domestic Sci.	Conn. State
Marguerite Molans	An	nez	k, grade 3	N. H. State Nor.
Helena Lucas	Cec	lar	Ridge, grade 1	N. H. State Nor.

The demand for training for teachers is growing. I predict that in a comparatively short time it will be required that those who enter grade school teaching shall have a bachelor degree and that high school teachers shall have a master's degree.

It is a pleasure to record that some teachers studied at summer school during the past year. These were: Anna LoPresti, Dorothy Sager, and Catherine Brady.

Buildings

It is a pleasure to record the building of the auditorium-gymnasium built through the co-operation of the Public Works Administration. The building is spacious, airy, and well adapted to the purposes for which it is designed. It will fill a long felt want in community and school activities.

The following are some of the larger repairs that have been made:

- 1. Painting of the exterior of the Maple Street School and high school.
- 2. Completion of the fence between Martha Street and the Center School lot.
- 3. New racks in the high school installed giving more room for coats and hats and increasing corridor room for the passing of classes.
- 4. Repair of flues at Maple Street School.
- 5. Redecorating of rooms except the basement rooms at Center School.
- 6. Clocks have been installed in rooms 18, 19 and 20 of the high school.
- 7. Repairs to roof of Maple Street School.
- 8. Window stripping on windows of Center School and the front rooms of Maple Street School.

The work of making class rooms over room five which you have begun, to be finished next year, will be a real contribution to the welfare of our schools. I feel that when these rooms are completed we shall have unusually good schools for a town of our size and wealth. Many repairs are sorely needed but I feel that we have done much this year in the right direction.

Health Activities

The nurses' work in the Seymour schools has been efficiently carried on as usual. The annual summer round-up of children who are to enter school revealed many defects which can be rectified by the co-operation of the parents.

Through the generosity of the Rotary Club the underweight children were supplied with free milk. This organization also contributed several pairs of arctics which took care of a serious need.

Your election of a full time physical education director to work with Miss Smyth in this field is the most forward step which has been taken for many years. I have noted some points in regard to this director.

- 1. By virtue of his training he is the logical person to which the high school principal may assign responsibility in the most important of educational objectives, viz., Health, Character, Citizenship and Worthy Use of Leisure.
- 2. Physical Education is a full time activity and should not be confused with mere coaching of athletic teams which may be carried on as an extra curricular activity. Among responsibilities and duties of a teacher of Physical Education are:
 - A. Supervision of equipment and facilities.

Locker and shower rooms.

Athletic equipment.

Sanitation and cleanliness.

- B. Organize a varied program that reaches all pupils.

 This means not only ability to schedule classes but also to teach them; to organize and conduct a program of intra mural sports and individual sports.
- C. To protect and improve the health of pupils.

A qualified teacher of Physical Education is well equipped by training to assist the school physicians in examinations, and to carry out recommendations as to restricted and corrective types of exercise that may benefit some types of physical handicaps; he is also qualified to carry on as a health adviser and a teacher of health.

Supervise the Physical Education program for

boys in Grades 7-8. Assist in organizing intra mural sports as a part of the grade school program.

Act as advisor in community recreation program which may reach young adults just out of school as well as older groups.

The Parent Teachers' Association

The continued activities of the Parent Teachers' Association have been a source of inspiration as they have brought many able and interesting speakers to us. -Their project of promoting a dental clinic is a most worthy one.

Men's Club

The interest of the Men's Club in school activities has been a help and inspiration.

Community Center

Largely at government expense we have conducted a Community Center at the high school building. Among the activities have been vocal music, arts and crafts, modeling, English, dramatics, typewriting, stenography, bookkeeping, gardening, rifle practice and athletics. The project has been effective in giving desired training to many and to others a healthful leisure time activity.

H. S. Principal's Report

I present the report of the high school principal.

Mr. R. C. Clark,

Supt. of Schools, Seymour, Conn.

Dear Mr. Clark:

During the past year we of the high school faculty have tried to emphasize certain social values which we believed to be of value to the individual pupils and to the life of the community as a whole. These values might be summarized under such headings as co-operation, civic pride, individual responsibility for the progressive development of the group as a whole. We have attempted to attain these objectives through the organiza-

tion of a Student Council, the raising of a Booster Fund which assisted in the financing of the programs of various activity groups.

We have sought further to improve the scholastic attainments of the pupils by reporting frequently to the parents on the work of their children. These reports have been both the formal report card which was issued quarterly and letters sent from the principal's office. The teachers have taken a great interest in this work and have greatly assisted in improving the scholastic work of the pupils by arranging office hours. Each teacher has at least one afternoon per week when she will be in her room to give extra help to such pupils as may feel the need of such assistance. The response on the part of the pupils left much to be desired and it may become necessary to make these extra sessions a required part of the program for those pupils failing to make passing grades.

The many changes in the physical plant make possible the broadening of the curriculum. Next year we shall offer work in health and physical education, now required by state law of all pupils in public schools. We are also offering a general course for those pupils not planning to enter college or commercial fields after leaving our school. We have tried to liberalize this work, getting away from the traditional academic procedures. I hope the time may come when we can carry this a step further and use our increased facilities to offer training in the fields of agriculture and some manual training of a shop practice nature. In a community such as ours, largely devoted to activities in these two fields it would seem that a step in this direction would be of the greatest value; providing interesting training for a great number of our children who are not primarily interested in the traditional academic field.

May I take this opportunity to thank you and through you, the Board of Education, and the people of the town of Seymour for the splendid interest and co-operation they have given us this past year. It is only through these forces that the work of the school can be advanced.

Respectfully submitted,

HENRY L. ADAMS,

Principal.

Grammar School Graduation

There were 149 graduated from the eighth grades this year. Prizes were awarded as follows:

1. History Prizes: Awarded by D. A. R.

Room 5—Peter Shurko.

Room 12—George Towle

Room 13—Theodore Glasson.

Room 14-Jack Burhoe.

2. Sewing Prizes: Awarded by James Swan.

\$1.00 each to

Virginia Fosdick

Audrey Fosdick

Alice Godkin

Pearl Curtis

Honorable Mention-Nadia Supranovich.

3. Mechanical Drawing Prizes: Awarded by James Swan 1st—\$1.50 to Theodore Glasson.

2nd-\$1.00 to Peter Shurko.

3rd—\$1.00 to George Towle.

Honorable Mention-Stanley Michalik.

4. English Prizes: Awarded by Woman's Auxiliary.

1st—\$1.50 to Marcia Schaefer.

2nd-\$1.00 to Margaret Ahern.

5. Two Medals: Awarded to that girl and boy who shows the best sportsmanship throughout the year in the games they enter into as a class team member.

Boy-Joseph Wanciak. Girl-Nadia Supranovich.

6. Basketball Lettermen:

Joseph Nalewajk Joseph Gesek Zigmot Baranowski Benny Usevich Stanley Baranowski Harry Trianovich Andrew Plaskon LeRoy Hibbard William Bukoski Clarence Domozych

High School Graduation

There were 74 graduated from the high school this year. Prizes were awarded as follows:

- 1. \$5.00 given by the Alumni Association for excellence in Business Course, given to Walter Hunchak.
- 2. \$5.00 given by the Alumni Association for excellence in English, given to Jean Thomas.
- 3. \$5.00 given by the Alumni Association for excellence in the Secretarial Course, given to Lydia Hessler.
- 4. \$5.00 given by the Seymour Woman's Club for excellence in the Scientific Course, given to Theodore Krynitsky.
- 5. \$2.50 given by the Seymour Woman's Club for excellence in Sophomore Domestic Science, given to Estelle Wilkinson.
- 6. \$2.50 given by the Seymour Woman's Club for excellence in Freshman Domestic Science, given to Ruth Lennon.
- 7. \$3.00 given by Mr. and Mrs. E. K. Tomlinson for excellence in the Classical Course, given to Jean Thomas.
- 8. \$2.50 given by the Woman's Auxiliary American Legion for excellence in Problems of Democracy, given to Walter Hunchak.
- 9. \$5.00 given by the Seymour Chamber of Commerce for excellence in History, given to Alice Cable.
- 10. \$5.00 given anonymously for excellence in French, given to Jean Thomas.
- 11. \$3.00 given anonymously for excellence in Typewriting, given to Paul Fryncko.

- 12. A Medal given by the Alumni Association of Rensselaer Polytechnic Institute for excellence in Mathematics and Science, given to Theodore Krynitzky.
- 13. Citizenship Medal given by the American Legion to the Senior girl who has shown the most school citizenship, given to Alice Cable.
- 14. Citizenship Medals given by the American Legion to the Senior boy who has shown the most school citizenship, given to Joseph O'Donovan and Paul Pawlak—(tie).

In closing I wish to thank you for your continued co-operation and to commend your zeal in the performance of the important duties which the people of Seymour have entrusted to you.

Respectfully submitted,

RIDGLEY C. CLARK, Superintendent of Schools

REPORT OF THE SECRETARY

The library has much to be thankful for in the year just passed. Due to the generosity of the town which increased its appropriation from \$100 to \$600 this past year, the library was able to install a new furnace in place of the one which had cracked too badly for further use. It was also able to increase its book purchases, buying more of the reference books and important nonfiction demanded by the schools and townspeople. Some of the fine old books which are still in demand, like those by Dickens and Tolstoi, had been worn out and thrown away without being replaced. Their repurchase now became possible.

This spring the board of library directors also authorized the repainting of the library's interior, for persistent leaks which have at last been stopped, had caused spots and peeling on the walls and ceiling; many years dust and smoke had also made them most unsightly. Many people since have remarked on the attractive appearance of the library at present.

The library shared in the local tercentenary celebration for Connecticut last fall by placing on display all of its books and papers connected with Seymour's past. Since school children used this material continually in writing up assigned papers on our town's history, it could not be sent to the central exhibit of Seymour antiques but was laid out on one of the library tables. Sufficient interest was shown in the exhibit to have warranted continuing it for a longer period, if so much handling had not caused fear of loss or quick deterioration of irreplaceable and very frail documents.

Children's Book Week brought more children to the library than ever before. The generosity of Mrs. Matthies enabled us to provide more books than usual, and their bright colors and attractive illustrations drew much attention as always. The schools lent us most generous support, sending us a book house, a book puppet show, many beautiful posters and a bookcase. Each member of the eighth grade also made out a book list of favorite books in the library, visiting it for that purpose. There was standing room only, and not much of that, at the Saturday morning story hour, where in addition to the stories told by the librarian and her sister, a playlet was presented by the fifth and sixth grades of the Center School.

The circulation of books has fallen off somewhat, probably due to the rise in employment, since a similar trend has been noticed all up and down the valley and throughout many cities elsewhere in the United States. By comparison with statistics supplied in "A suggested measuring stick for Connecticut Public Libraries" furnished by the state, Seymour is still far short of the desirable one dollar per person income. By this standard we should have an annual income of \$6890 instead of that shown in the treasurer's report.

The townspeople of Seymour do not make sufficient use of the information service which the library is prepared to offer them. At present only school children and a few adults consult the library on any question which they cannot answer for themselves. No subject should be considered too trivial or too difficult.

Statistics for the past year are as follows:

Book Additions and Withdrawals

Added	through	gifts	154
$\mathbf{A}\mathbf{d}\mathbf{d}\mathbf{e}\mathbf{d}$	through	purchase	175
Added	from pay	collection	n123

Books lost, paid for 5	5
Books destroyed because of con-	
tagious disease	5
161	
Present number of books in library	11,279
Circulation Statistics	
Total number of books issued	33,902
Total number of books issued in 1935	38,024

REPORT OF THE FIRE DEPARTMENT

The Board of Engineers present their report for the past year with fire losses adjusted at \$3,450.00, the value of the property involved estimated at a conservative figure of \$44,120.00.

The Department answered nineteen telephone alarms, one for Oxford which amounted to \$55.00 for the service. Eleven alarms were transmitted over the Gamewell Alarm System, one of them false, nine calls were for chimney fires, one more than last year.

In the past year the Seagrave Suburbanite was put in service and we are justly well pleased with it and wish to express our thanks to the townspeople and to the Citizens Engine Company for the active part they took in raising the funds for its purchase, but we cannot stop there as the La France is eighteen years old and must be replaced soon. We believe another Suburbanite is the answer. The first cost is less and the maintenance is also less than the heavy type trucks. A fund should be started for this.

The old type alarm boxes are a year older and one year nearer failure and maybe nearer to heavy loss because of failure to put in an alarm and leave the rest of the system dead.

No new hydrants have been installed to help reduce insurance rates for many property owners. A hydrant within 500 ft. of the property will reduce the rates and also require less hose to most of the fires, which means less hose is needed to replace that used while it is in the tower to dry.

We believe that money spent for needed equipment in fire protection is a real gain to the town and setting aside a little each year to be used for that need is not so noticeable as calling for the full amount in one year.

Respectfully submitted,

JAMES W. SWAN,
FRED HILDEBRANDT,
SIDNEY S. BASSETT,
Board of Engineers.

REPORT OF THE HEALTH OFFICER

To the Honorabte Board of Selectmen of the Town of Seymour:

Gentlemen:

Health conditions in town for the past years of 1935-36 have been well above the average of past years. Very little contagion and no mild epidemics of past years. Milk inspection and examination by the State Department of Health at Hartford has been more thorough and exacting than at any time in the past, which will insure the townspeople of cleaner and better milk; also healthier children, with less chance for the ravages of disease from unclean milk.

Sewer conditions unchanged at present.

Trusting for cleaner and better health, I remain,

Yours respectfully,

E. R. HARVEY, M. D. Health Officer.
